Course Description:

The Music program is designed to enhance the musical, creative and expressive qualities of all students. Musical opportunities are provided for every child to learn the basic skills of singing, playing and reading music, developing song repertoire, broadening listening skills and experiencing the interrelated nature of music with other cultures and content areas.

The Instrumental Music Program is designed for students to apply musical skills as they continue to create and experience music. Students will practice and demonstrate instrumental technique. Students will be introduced to rhythm. Students will practice and develop skills for pitch. Students will practice and demonstrate instrument maintenance. Students will analyze music and performances through self reflection. Students will be able to describe historical context related to student performances. The topics in this music course will provide a strong foundation for the continuation of their music skills as the Intermediate School age child progresses through the 2nd year Elementary Instrumental Music Program. This program supports students on their path to perform and appreciate music as independent life-long participants of instrumental music.

Specific and measurable objectives directly related to the academic standards to be achieved by students:

Specific objectives for this course are stated as benchmarks for the standards in the 4th and 5th Grade Instrumental Music Scope and Sequence document.

Content to be used to reach objectives:
